

IOSH Working Safely

Normandie Health & Safety Ltd are licensed providers of the Institution of Occupational Safety and Health course 'Working Safely'.

Course Objectives

This course is designed to train workers at all levels to ensure that their actions contribute to health and safety in the workplace and that their individual responsibilities are clearly understood

Course Content

Defining safe working, identifying hazards and risks, selecting and seeking advice on workplace precautions and assisting managers to prepare risk assessments

Workplace precautions for sources of hazards, fire, manual handling, electricity, display screen equipment, chemicals and substances, work equipment, movement of people, poor housekeeping and noise

Improving the organisations safety performance, including reporting relevant accidents and incidents, monitoring work activities, commenting on health and safety policy. Complying with requirements for control in safety management, co-operating with managers in safety activities, communicating on safety matters and identifying competencies required for safe working.

Who Should Attend

The course is designed for all employees, managers and employers to provide the foundations of a safety and health understanding.

Assessment

The course will be run by a registered tutor from Normandie Health & Safety Ltd. At the end of the course there are written question papers (multi choice and written).

Successful candidates will be awarded a certificate from the Institution of Occupational Safety and health (IOSH) - a recognised qualification in health and safety.
